2,000 calories a day is used for general nutrition advice, but calorie needs vary.

Menu items and nutritional information may vary based on differences in product offerings and unit compliance with Mr. Hero's standard operating procedures. Also, from time to time test products may be marketed that are not available at all locations.

The nutrition information is based on standard product formulations and serving sizes. Beverage values may vary based on cup fill level, amount of ice and fountain equipment performance.

***The following major food allergens are used as ingredients in this facility: Milk, egg, wheat and soy.
Please notify staff for more information regarding these ingredients.***
